Bize Ulaşın

Most natural waters range from pH 4 to pH 9, but commonly are above pH 7 because of carbonates and bicarbonates (alkalinity). The pH of water used in industry, boiler feed water, and swimming pools usually is kept within a narrow range. Simply add indicator to the sample and compare the color to the spots on the color disc to measure pH.

A wide range kit applicable to a variety of samples

A great option for fast, reliable readings

Teknik özellikler

Metot:	Color disc/ Wide range indicator
Model:	17N
Muhafaza Türü:	B
Ölçüm aralığı:	4 - 10 pH
Parameter:	pH
Parametre:	pH, wide range
Platform:	Renk Diski
Smallest increment:	0.5 pH
Standart aralık:	4 - 10 pH
Test kiti modeli:	17N
Test sayısı:	300
